

v1.0

Exporting Workspace Files to Go

At times, it is necessary to export a Netlinx workspace for backup purposes, or sent for use or review by other parties. The method to do this is detailed below:

- I. In Netlinx Studio navigate to the "Project Tab"
- 2. Select Export Workspace Files To Go:

Workspace Files		
Full Path and File Name of	the "To Go" File - (.AXW)	
The "To Go" Workspace Fi	le Name to Create (no directory/path information is required) - (.APW)	
NOTE 1: All files will reside NOTE 2: No directory/pat NOTE 3: You may enter n	in the same directory as the APW file upon extraction of this AXW file. h information is required for the "To Go" .APW File Name. on-existing folders and the program will create them for you.	
Export Options		
	Include User IRN Database(s)	
Full Workspace	Include Module Files that are not part of the Workspace	
Only Active Project	Exclude all Source Code/AXS and Duet Module Files	
Only Active System	✓ Indude the Compiled TKN File	
	✓ Indude the Compiled SRC File	
I	✓ Keep Existing Folder Names
