

### Question:

How to use AKG K812's and K872's connector?

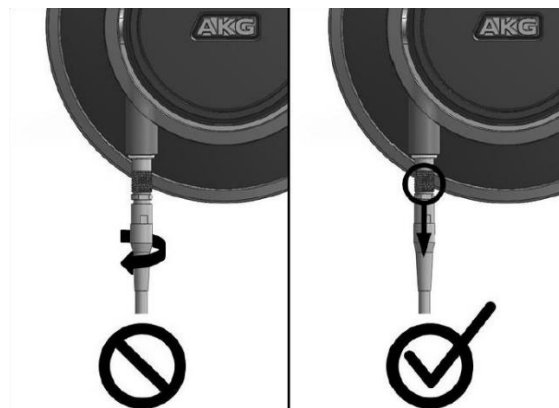

### Answer:

There is only one way to connect or disconnect the cable to the headphone and it is very important not to rotate or twist it as this can destroy it immediately, the pins can break.

1. To connect please check and use the marker on the plug and on the headphone and get them together.

2. To disconnect please pull the metal moving part on the connector, which causes the pins to retract into the housing, releasing the bond.

#### About HARMAN Professional Solutions

HARMAN Professional Solutions is the world's largest professional audio, video, lighting, and control products and systems company. Our brands comprise AKG Acoustics®, AMX®, BSS Audio®, Crown International®, dbx Professional®, DigiTech®, JBL Professional®, Lexicon Pro®, Martin®, Soundcraft® and Studer®. These best-in-class products are designed, manufactured and delivered to a variety of customers in markets including tour, cinema and retail as well as corporate, government, education, large venue and hospitality. For scalable, high-impact communication and entertainment systems, HARMAN Professional Solutions is your single point of contact. [www.harmanpro.com](http://www.harmanpro.com)
