## Amplifier Replacement Guide Crown, JBL Cinema & JBL Commercial 3/14/2025

Header Key: Current as of March 2025 Obsolete, but still repairable Obsolete, repair options limited

Replaced by other lines

Criteria for amplifier replacement consideration Primary: output power of replacement Close 2nd: model similarity Close 3rd: connection types

## Footnotes

<sup>&</sup>lt;sup>1</sup> Geodyne version of PT series was export only.

<sup>&</sup>lt;sup>2</sup> UT UltraTech version of CE Series was made for Sam Ash Music Stores only.

<sup>&</sup>lt;sup>3</sup> CE series was also sold in China only as M Series. There was also another variation, the S Series

<sup>&</sup>lt;sup>4</sup> DSi series was also sold in China only as CNi Series.

<sup>&</sup>lt;sup>5</sup> DSI 2.0 series are 4 channel amps somewhat based on CDi Drivecore, intended for cinema use.

<sup>&</sup>lt;sup>6</sup> CTs Amplifiers with PIP Lite,USP2,USP3, USP3CN, USP4CN cards require DCiN or DCiDA. No currently sold amps of similar power support CobraNet.

<sup>&</sup>lt;sup>7</sup> MA36x12 combined one channel of a MA3600VZ with one channel of a MA1200.

<sup>&</sup>lt;sup>8</sup> Circa 2012, HARMAN recommended CTs1200 (Class AB+B) and CTs2000 (Class I) as replacements for the Reference amps.

<sup>&</sup>lt;sup>9</sup> XTi2 Series is a close match in power and amp class AB+B, but not really a substitute for the Reference amps.

<sup>&</sup>lt;sup>10</sup> XLS (3ru) was Crown's name for C-Audio GB series amplifiers.

<sup>11</sup> DCi2x2400N and DCi4x2400N power supplies are based on the IT4x3500HD. They are not capable of a true "sleep" mode, sleep merely disables the outputs.

<sup>&</sup>lt;sup>12</sup> CDI Drivecore was created as a lower cost alternative to DCi Drivecore, and may be substituted when DCi features are not needed.

<sup>&</sup>lt;sup>13</sup> X version of XLi Series was made for Guitar Center only.

 $<sup>^{14}</sup>$  These replacements for the 140MPA have a more limited feature set.

<sup>&</sup>lt;sup>15</sup> XTi Series repair is possible by using XTi2 boards.
