

### What exactly is the NetLinX.AXI file and how often do I get an update?

The NetLinX.axi file is where the various standard system structures and variables are defined. This file is called at every compile and is included even without being specified in the program. It is a default include file.

At this time, updates have occurred to the NetLinX.axi file during Netlinx Studio version changes and when additional keywords have needed to be added. If an update is needed, Technical Support will most likely have it first but it will also most likely be available as a Netlinx Studio Support Files update from the download section of the website unless a new Netlinx Studio version releases at the same time..

#### About HARMAN Professional Solutions

HARMAN Professional Solutions is the world's largest professional audio, video, lighting, and control products and systems company. Our brands comprise AKG Acoustics®, AMX®, BSS Audio®, Crown International®, dbx Professional®, DigiTech®, JBL Professional®, Lexicon Pro®, Martin®, Soundcraft® and Studer®.
