

What can AKG MicroLite microphones be used for?

Question:

What can AKG MicroLite microphones be used for?

Answer:

The microphones from the MicroLite series are professional cardioid or omnidirectional condenser microphones.

The microphones are specifically designed for use in the following high-end areas:

- Musicals
- Theater
- TV shows
- Presentations

The compact size ensures optimum comfort. Additionally, the microphones feature the best sound quality and long service life.

The AKG MicroLite series is compatible with all common wireless systems and can connect to an XLR cable.

The following variants, each being cardioid and omnidirectional, are available within the MicroLite series:

Lavalier microphones

Ear-hook microphones

Head-worn microphones
