Managing Network Permissions For Harman Apps in iOS14 and Above

Devices Will Not Discover in Harman Pro Apps

After installing iOS14 and above on iPad, iPhone, iPod, you mno longer will be abnle to discover devices on the network in most Harman Pro applications. This is due to security settings and permissions needing to be set in the device itself.

Allow/Disallow Apps from Having Access to Your Local Network

1. Launch the **Settings** app on your iOS device running iOS 14. Or above.

2. Now, tap on **Privacy**.

Reminders			

If you want to disallow any app from having access to your local network, simply turn off the switch located right next to it.

If you ever happen to change your mind and wish to allow the app to get access to your local network, all you need to do is return to this very screen and then turn on the switch.
