Determining What Type of Fog Fluid is Needed

10-Jan-22

Can I use fog fluid from another haze/fog machine in my unit?

Your machine can run safely only on the specific fog/haze fluid it is designed for. Use only the approved fluid as designated in the user manual. NEVER dilute or use any other type of fluid, or toxic gas may be produced. Always consult the user manual for the exact model you are working with.

About HARMAN Professional Solutions

HARMAN Professional Solutions is the world's largest professional audio, video, lighting, and control products and systems company. Our brands comprise AKG Acoustics®, AMX®, BSS Audio®, Crown International®, dbx Professional®, DigiTech®, JBL Professional®, Lexicon Pro®, Martin®, and Soundcraft®.
