

## Frequently Asked Questions

v1.0

### Connecting EON ONE MK2's Together

3-Jan-23

#### Question:

Is it possible to connect multiple units together?

#### Answer:

Yes. The EON One Mk2 has a Pass Thru jack for this function. Connect a Balanced 1/4" TRS cable between the Pass Thru jack of the first speaker to a channel input of the next unit. Repeat this process to add more speakers for better coverage.

NOTE: This will not create a Stereo System, rather it will create a Mono System with more coverage area.

#### About HARMAN Professional Solutions

HARMAN Professional Solutions is the world's largest professional audio, video, lighting, and control products and systems company. Our brands comprise AKG Acoustics®, AMX®, BSS Audio®, Crown International®, dbx Professional®, DigiTech®, JBL Professional®, Lexicon Pro®, Martin®, and Soundcraft®.
