Headphone Impedance for SI Mixers

11-Jan-23

Question:

What is the recommended headphone impedance for the Signature series mixers?

Answer:

Soundcraft recommends the use of headphones with it's impedance between 75 and 200 ohms for the best possible result for its Si line mixers.

About HARMAN Professional Solutions

HARMAN Professional Solutions is the world's largest professional audio, video, lighting, and control products and systems company. Our brands comprise AKG Acoustics®, AMX®, BSS Audio®, Crown International®, dbx Professional®, JBL Professional®, Lexicon Pro®, Martin®, and Soundcraft®. These best-in-class products are designed, manufactured and delivered to a variety of customers in markets including tour, cinema and retail as well as corporate, government, education, large venue and hospitality. For scalable, high-impact communication and entertainment systems, HARMAN Professional Solutions is your single point of contact. www.harman.com
