Bluetooth Linking EON700 speakers

11-Jan-23

Question:

Can the EON700 series speakers be linked together via bluetooth?

Answer:

The EON700 series speakers can not be linked together via Bluetooth (wirelessly) for audio streaming. To link EON700 speakers together would require a physical cable. An XLR female to XLR male balanced cable connected to the first speaker using the “Pass Thru” connection to 2nd speaker CH input 1 or 2. Then using the LCD screen menu GUI, raise the CH gain the CH connected on the 2nd speaker (to around 30 db as a start). Adjust as needed after verifying audio is playing.

About HARMAN Professional Solutions

HARMAN Professional Solutions is the world's largest professional audio, video, lighting, and control products and systems company. Our brands comprise AKG Acoustics®, AMX®, BSS Audio®, Crown International®, dbx Professional®, JBL Professional®, Lexicon Pro®, Martin®, and Soundcraft®. These best-in-class products are designed, manufactured and delivered to a variety of customers in markets including tour, cinema and retail as well as corporate, government, education, large venue and hospitality. For scalable, high-impact communication and entertainment systems, HARMAN Professional Solutions is your single point of contact. www.harman.com
