Connecting Wi-Fi router to a Ui24R Mixer

18-Jan-23

Question:

To which Ethernet port of the Ui24R mixer can I connect my Wi-Fi router?

Answer:

You can connect your Wi-Fi router only to the ETHERNET port of the mixer. This port can be used to every type of LAN connection. The ETHERNET 2 port is used only for the cascade feature allowed with other Ui24R mixers.

For the LAN settings please refer to the 112. page of the mixers User Guide:

https://www.soundcraft.com/en/product_documents/ui24r_manual_v1-0_web-pdf.

About HARMAN Professional Solutions

HARMAN Professional Solutions is the world's largest professional audio, video, lighting, and control products and systems company. Our brands comprise AKG Acoustics®, AMX®, BSS Audio®, Crown International®, dbx Professional®, JBL Professional®, Lexicon Pro®, Martin®, and Soundcraft®. These best-in-class products are designed, manufactured and delivered to a variety of customers in markets including tour, cinema and retail as well as corporate, government, education, large venue and hospitality.
