## Creating and Using Groups on Si Mixers

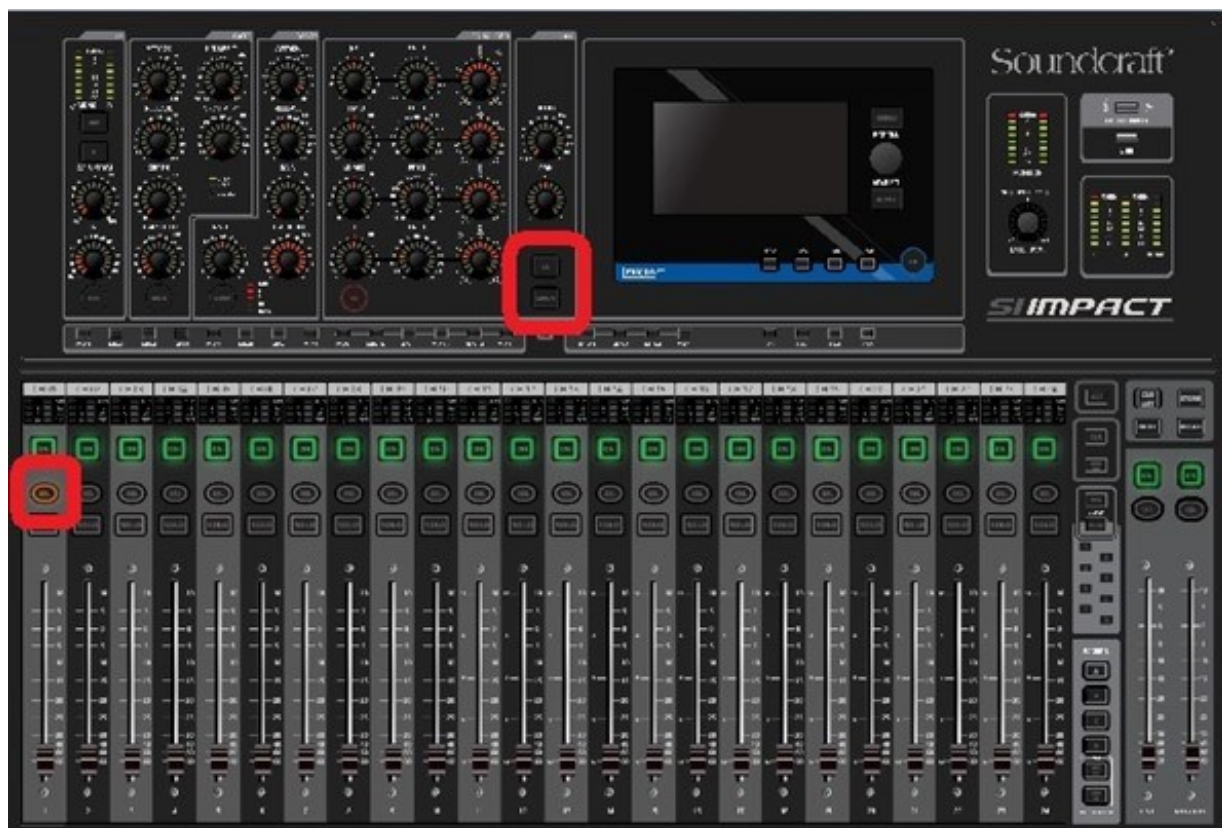

19-Jan-23

**Question:**

How do I use Subgroups on my Si mixer?

**Answer:**

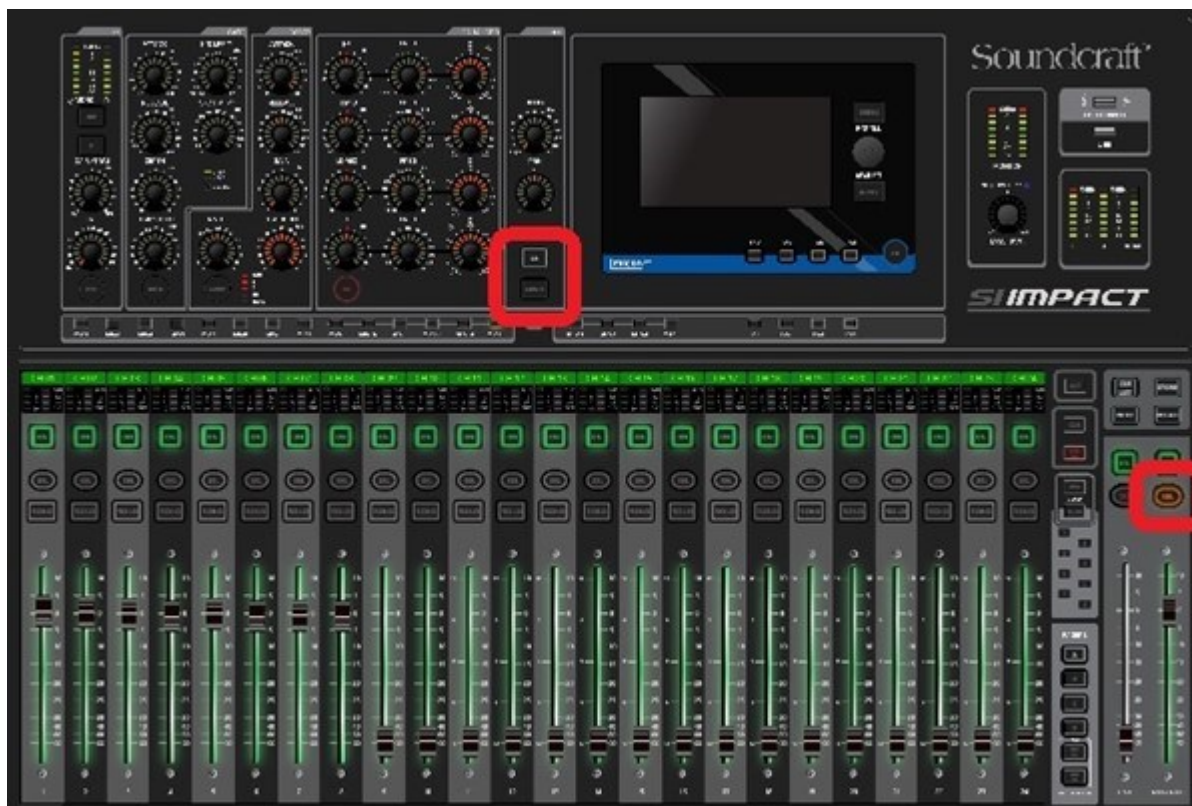

First, select each channel that you want to be in the Group and de-select LR and/or MONO on those channels.

# Creating and Using Groups on Si Mixers

With a post fader Aux mix selected, assign the mix to LR and/or MONO. then bring up the channels you wish to be in the group to unity (0db). Once again, make sure those channels are no longer assigned to LR and/or MONO.

This will create a Group and the mix master is then the Group Master

## About HARMAN Professional Solutions
