# Extracting the DSP Configuration in a BSS Soundweb London Device

19-Jan-23

## Question:

Is it possible to extract the DSP configuration from a BSS Soundweb London device?

## Answer:

The DSP configuration cannot be extracted from the device. The DSP configuration files are compiled and sent to the Soundweb London device after clicking the “L” icon when Audio Architect enters Run Venue Mode. The DSP configuration files cannot be de-compiled and cannot be opened in Audio Architect.

Note: The DSP configuration is not the same as the Audio Architect file (.audioarchitect). The DSP configuration comprises only the audio DSP code, logic code, parameter preset information, link information and control port configuration.

### About HARMAN Professional Solutions

HARMAN Professional Solutions is the world's largest professional audio, video, lighting, and control products and systems company. Our brands comprise AKG Acoustics®, AMX®, BSS Audio®, Crown International®, dbx Professional®, JBL Professional®, Lexicon Pro®, Martin®, and Soundcraft®. These best-in-class products are designed, manufactured and delivered to a variety of customers in markets including tour, cinema and retail as well as corporate, government, education, large venue and hospitality. For scalable, high-impact communication and entertainment systems, HARMAN Professional Solutions is your single point of contact. [www.harman.com](http://www.harman.com)
