

How to Connect and Run a Ui24 Mixer in Three Easy Steps

1. Connect your device to the Ui24 using Wi-Fi. When searching for wireless networks you will see the Ui24 broadcasting its SSID.
2. Open an Internet Browser on the device.
3. Type ui.io into the Address Bar and hit enter.

If you get a screen with random colors or some random website go back and make sure you're connected to the Wi-Fi for your Ui mixer.
